**MEDICAL SCHOOL**

# Research

## Department of Ophthalmology and Visual Sciences

### *Colloquium Lecture Series*

The Colloquium Lecture Series is a program developed to bring visiting speakers from other institutions to the University of Wisconsin Madison. Its goal is to provide a forum for the sharing of knowledge and ideas among researchers and those interested in research alike on topics pertinent to modern fields of medical study.

### Research Colloquia 2005

For more information, please call Michelle Chizek, Research Colloquium Coordinator, 608-262-0496 or [mchizek@wisc.edu](mailto:mchizek@wisc.edu)

**All Lectures are 12-1 PM unless noted otherwise.**

| Day             | Room          | Event/Open Date  |
|-----------------|---------------|--|
| <b>January</b>  |               |  |
| 7               |               |  |
| 14              |               | Friday before Martin Luther King Day, <b>CLOSED</b>  |
| 21              |               |  |
| 28              |               |  |
| <b>February</b> |               |  |
| 4               |               |  |
| 11<br>12-1 pm   | G5/113<br>CSC | <a href="#">Anne Greip, PhD</a> , UW Department of Anatomy, "Regulation of cell growth and differentiation in the mouse lens by tumor suppressor proteins."        |
| 18              |               |  |
| 25              |               |  |
| <b>March</b>    |               |  |
| 4               |               |  |
| 11<br>12-1 pm   | G5/113<br>CSC | Sakae Ikeda, DVM, UW Department of Genetics<br>"Corneal epithelial hyperproliferation and neovascularization in destrin (actin depolymerizing factor) mutant mice" |
| 18              |               | Visiting Professor, <b>CLOSED</b>  |
| 25              |               | Good Friday, <b>CLOSED</b>   |
| <b>April</b>    |               |  |
| 1               |               |  |
| 8               |               |  |
| 15              |               | Visiting Professor, <b>CLOSED</b>  |

|                   |               |   |
|-------------------|---------------|---|
| 22                |               | Spring Symposium, <b>CLOSED</b>   |
| 29                |               | ARVO, <b>CLOSED</b>   |
| <b>May</b>        |               |   |
| 6                 |               |   |
| 13                |               | Commencement, <b>CLOSED</b>   |
| 20                | K6/120<br>CSC | <a href="#">Nader Sheibani, PhD</a> , UW-Ophthalmology and Visual Sciences, "PECAM-1 Mediated Signal Transduction and Regulation of Angiogenesis"   |
| 27                |               | Friday before Memorial Day, <b>CLOSED</b>   |
| <b>June</b>       |               |   |
| 3                 | K6/120<br>CSC | <a href="#">Donna Peters, PhD</a> , UW-Path and Lab Medicine, "Role of cell-matrix interactions in glaucoma"  |
| 10                |               | Residents' Day, <b>CLOSED</b>   |
| 17                |               |   |
| 24                |               | Resident Graduation, <b>CLOSED</b>  |
| <b>July</b>       |               |   |
| 1                 |               | Friday Before Independence Day, <b>CLOSED</b>   |
| 7                 | G5/134<br>CSC | <a href="#">Peter Campochiaro, MD</a> , Wilmer Eye Institute, Johns Hopkins, "Ocular gene transfer." Sponsor: Nader Sheibani, PhD.  |
| 15                |               |   |
| 22                | G5/113<br>CSC | <a href="#">Adrian Glasser, PhD</a> , University of Houston, "The Dynamics of Accommodation."   |
